EXPERIENCE

Agentic AI Services LLC — AAI Support Platform (Internal Build), Remote

Product Management Intern

Jun 2026 – Aug 2026

- Owned end to end delivery of an internal Help Desk platform rebuild, planning and shipping 36 tasks across 4 phases to 100% completion
- Authored the Statement of Work and full project plan, defining scope, budget, and timeline for the rebuild
- Ran developer planning and estimation sessions and led recurring dev meetings to keep the team aligned on scope and deadlines
- Built two way sync between the project plan and dev board, automating status updates, phase carry over, and dependency driven delay cascades
- Worked hands on across Claude, GitHub, Cursor, Supabase, and Vercel, testing features through local and production environments before release

Rojan USA, Frisco, TX

Project Management Intern, Game Development

Aug 2023 – Oct 2024

- Supported delivery of 10+ feature releases
- Partnered with a 3-5 person cross-functional team of engineers, designers, and marketers throughout each sprint cycle
- Designed and executed 6+ A/B tests on player facing features to generate engagement insights
- Used A/B test results to inform feature prioritization and retention strategy
- Facilitated sprint planning and backlog refinement, drafting user stories, acceptance criteria, and feature specs

PROJECTS

Mingo — Language-Learning Alarm App (iOS)

Sep 2026 – Present

- Developing an iOS alarm app that builds language learning into the user's morning routine, turning the daily wake-up into a quick practice session
- Leading the product end to end, from concept and market research to feature scope and monetization planning; currently in development

Personal Portfolio Website - <https://jedesu.github.io/>

Helping Hands for Children (Nonprofit Client Engagement), Dallas, TX

Project Operations Coordinator Intern / Project Lead

Jan 2026 – May 2026

- Led a 3 person team through the full project lifecycle for a residential childcare nonprofit client
- Facilitated 6+ stakeholder meetings to gather requirements, scope deliverables, and align client expectations
- Delivered a full website audit, interactive HTML prototype, and grant funding research package to the client
